Eldred, D. Stith, Eli Smith, M. W. Brand and T. L. O'Bryan. The capital stock of the company is fixed at \$25,-000, and it is to exist for 50 years. The object of the incorporation is to furnish water to the inhabitants of Medicine Lodge and vicinity for domestic, manufacturing, mechanical and other purposes; to supply the city with water in case of conflagrations and for street sprinkling purposes.

This organization is the result of an article published in the INDEX last week calling attention to the grand opportunity offered for bringing water from Elm north of town, over the hills directly through the streets, and at a comparatively small expense. When that article was read by the gentlemen engaged in the enterprise, they immeengaged in the enterprise, they immediately set to work getting up their articles of incorporation.
